

Obstetrical Fees Policy for Cash Pay Patients

PATIENT NAME _____ Date _____

Our cash fee package for prenatal care and delivery includes:

- Whooping cough vaccine (TDaP) if needed
- Routine ultrasounds – usually one or two
- All prenatal visits
- The delivery of your baby
- All postpartum care – in the hospital and the office
- The fee for a C-section birth is higher than for a vaginal birth. Includes FOWH assistant DR. But for C/S, a surgical assistant fee might be billed by non-FOWH DRS.

Additional fees are required for High-risk pregnancy (with frequent ultrasounds and fetal monitoring), lab tests, consultant fees, circumcision. Hospital costs are not included in our cash package fee (anesthesia for example and all other hospital bills).

Routine OB Labs - NOT included:

- Blood panel (Primex Labs): HepBsAg, HIV, TSH, Blood Type, Rh, Ab Screen, RPR, CBC
- Strep B (GBS) culture
- Urine culture and analysis

Vaginal Delivery (low-risk) \$4,100

C-section Delivery \$5,100

High-Risk Pregnancy \$1,000 additional
(includes weekly ultrasounds and twice-weekly non-stress tests) until delivery

Newborn Circumcision \$395

Payment in full is due by 34 weeks of pregnancy.
