

THE SCIENCE OF

RESULTS YOU CAN TRUST

SEQUENOM LABORATORIES
PATIENT GENETIC EDUCATION
(PAGE)

SEQUENOM LABORATORIES PATIENT GENETIC EDUCATION (PAGE)

By now, your health care provider has ordered a Sequenom Laboratories test for you. We understand that planning a family can be both a time of excitement and nervousness. Whether you have questions before you get tested, or want to gain a better understanding in the event of an abnormal test result, our board-certified genetic counselors are here for you every step of the way.

Your health care provider has authorized this service for you. To schedule a PaGE session, follow these simple steps:

HOW IT WORKS:

- 1 Call **877.821.7266** to schedule an appointment with one of our genetic counselors. When you call, you will be asked to provide:
 - Name
 - Phone number
 - Email
 - Preferred appointment date and time
- 2 A genetic counselor from PaGE services will call you for your scheduled appointment at the phone number you provided.
- 3 What to expect after your session with a PaGE genetic counselor:
 - Pre-test education - your provider will receive a documented clinical note summarizing the discussion
 - Post-test counseling - you and your provider will each receive a copy of the documented clinical report

PaGE Program includes services for VisibiliT™, MaterniT21® PLUS, MaterniT™ GENOME, HerediT® CF, and HerediT® UNIVERSAL laboratory-developed tests.
